

Y6 Homework

Your next IPC topic is focused on space. Your task over the next seven weeks is to produce a project on a planet in our solar system. It needs to have a contents page and contain information on **all** aspects of the planet (key statistics/facts, moons, composition, satellite missions to the planet etc.) as well as some images. This is a major project and should take you approximately 7-10 hours to complete.

Due on Tuesday 22nd January
