

Mrs Morris' favourite books

I really enjoy reading *Stickman* by Julia Donaldson because it rhymes and it is such a lovely adventure story with a happy ending. I have read it so many times that I know lots of it off by heart; the rhyming words help me to remember it. I know it is a 'Christmas story' but I could read it all year round!

I am a huge Harry Potter fan so it was difficult to choose my favourite one! I chose the Chamber of Secrets because I think the flying car is brilliant and I like how Fred, George and Ron save Harry Potter from being stuck in his room at the Dursley's. I also think that Gilderoy Lockhart, the new defense against the dark arts teacher, is a funny character because of his extravagant lies!

I discovered this book after the film came out. I really enjoyed the film because of the futuristic nature of it and the idea of virtual reality taking over the real world. I bought the book to take on holiday and I read it in 2 days! The best part about the book is how well the author described the characters and the 'Oasis', the virtual reality world that they all visit. The descriptions made it easy to picture the world and the people.
