

Below are four boring sentences. Copy onto lined paper and improve each sentence twice. Do not forget to tell me how you have improved each sentence.

1. The ships were on the water.
2. The soldier had a sword.
3. The sky was stormy.
4. The water crashed against the cliffs.

Example:

The sand was wet.

Improvement 1: The once golden sand was now drenched in ruby-red blood.

Improvement 2: Early that morning, there had been a ferocious battle on the beach, which resulted in the once golden sand to become drenched in sticky, ruby-red blood from the Roman enemies.

I have improved my sentences by including a fronted adverbial, complex sentence, commas in a list and better adjectives.
