

Activity 1 LJV and GA group

You must remember to align your digits

Please show your working out

Adding 3-digit and 4-digit numbers

1. $3575 + 2718$

2. $5671 + 1482$

3. $4289 + 245$

4. $6582 + 1998$

5. $4578 + 234$

6. $8482 + 573$

7. $7458 + 634$

8. $5678 + 3781$

Challenge

Write two additions with answers between 5000 and 10,000 where there are no 2s or 3s in any of the numbers.

Show your method – including answers that do not achieve the criteria as this shows how you arrived at your final answer.
