

Good

What are fossils?

What are the two types of fossil?

How do fossils form?

What do fossils tell us?

What three things have patterns in fossils told us about life on Earth?

Great

What are fossils?

What are the two types of fossil?

How do fossils form?

What do fossils tell us and how do they tell us this?

What three things have patterns in fossils told us about life on Earth?

Give one way in which fossils show evidence for evolution.

Awesome

What are fossils?

What are the two types of fossil?

How do fossils form?

What do fossils tell us and how do they tell us this?

What three things have patterns in fossils told us about life on Earth?

How do fossils show evidence for evolution? Make sure you discuss all of the evidence.
