

Want to Learn an Instrument at school?

Milton Keynes Music Co-operative

We are a not-for-profit association of self-employed music teachers. I am Miss Burton, I have been a woodwind teacher for over 20 years in Milton Keynes. I am a professional partner within the MK Co-op and a woodwind specialist.

Music is a universal language, and it can bring great joy to everyone. Playing a musical instrument can be beneficial in so many ways to the learner, from confidence building to coordination. There have been many scientific studies carried out that have proven music to be a calming and mentally stimulating, beneficial skill.

I can offer flute, clarinet and, recorder lessons in school. Instruments can be hired for a small fee from Milton Keynes music service.

<https://miltonkeynesmusichub.co.uk/>

Or I would be happy to offer advice for a new/second hand instrument.

I will give lessons weekly in school time, during the lesson your child will learn to read music, this skill alone is transferable to many other instruments. Focus will be on developing good technical skills with the chosen instrument, and fun! I want our musicians to love playing music as much as I do! 😊

We have the opportunity to take on new students from September. If you would like any further details about music lessons please get in touch with me on;

Torburton@aol.com

Lessons can also be requested for by registering interest with the school office directly.

Have a look at just a few of the talented musicians below;

Greg Pattillo; flute & beatboxing Super Mario :
